HOLINESS.

Tunes.—Praise, 139. Song-Book, No. 410.

I bring to Thee my heart to fill,
I feel how weak I am, but still
To Thee for help I call;

To laugh or weep, to live or die,
For earth or Heaven, this is my cry,
Thou art my all-in-all.

No joy that charms me out of Thee, Around me in the world I see Its honours fade, and fall; But with Thee, though I mount the

Cross Cross,

I count it gain to sufffer loss,
For Thou art all-in-all.

No tempest can my courage shake, No pain fro take, from Thee my love can

No fear my heart appal;
And where I cannot see I'll trust,
For then I know Thou surely must
Become my all-in-all.

"The effectual fervent prayer of a righteous man availeth much."
There was once an old man who whenever, on Sundays, it was at all possible for him to attend. From his point of vantage he would watch the door, and, singling out some young man, would pray for him till he saw him come forward and join the church. Then he would single out another and commence to pray for him in like manner, until he witnessed a similar result, and so lantil at the end of twenty years he had seen many young men thus fact was not known in anyone until it was disclosed to the Pastor when the old man lay on his death hell.

HEART-TO-HEART TALKS.
(By Mrs. Blanche Johnston)
The excuse is often made by the The excuse is often made by the Christian. "We have so little time for prayer." I know this busy electric age is crowded with work and dury, and there seems very little opportunity for the old-fashioned, quiet mediation, which made the quiet mediation, which made the saints of old so strong and confident. But, perhaps, herein is to be found our mistake, and the cause of spiritual "inertia" and failure. We find that the busier our Saviour's life was the more time He took to pray, often spealing away from the pressing crowd which thronged His steps, into the mountain top alone to pray. Even when He did not have time for food. He found time to pray.

"He prayeth best who leveth best."

Prayer is necessary; it is oil to the lamp, the food to the spiritual palate, the electric current which keeps onen the communication with the museon.

Prayer does many things for us.

God gives light in prayer, and reveals His will in times of perplexity.
God gives assurance in prayer; clears away the logs and lears, the

doubts and misgivings.

He gives peace in prayer; calms
the tempestions billows which sweep over our souls in times of sorrow and darkness. The Lord gives confidence, and courage gives comments

The Lord gives Ilis Holy Spirit in prayer, with its inspiration, joy, and comfort. He does not always give the answer we seek, but He gives submission through prayer.

Perhans you will say: "Why does He not answer my prayer and remove the pain I suffer?" He may be mouthing you in the same fur-nace as He passed through—for "He learned obselvance by the things which 'He suffered." "Whe, my dear, God would stop all the music to hear and answer all the music to bear and answer a little girl's prayer." I cannot say that God will stop the heavenly choir to hear our petitions, but, however humble our request He will heed and answer in his own time for the fulfilling of His best pur-

THE ARMY'S CRYING NEED

MAneil 26, 1013

HELIEVE—nay, I know—that there is a great deal of prayer in The Army. Our Officers pray, the Soldiers pray, and the children pray. Early and late, on Sobbaths and received and interessions go up to Heaven. But we work the soldier prayer was used to the crying needs. We have other crying needs. We want more Candidates, more zeal, more money, more enterprayed and a creat many other things: thus one

Candidates, more zear, more money, more enter-prise, and a great many other things; but one of the cost pressing and important needs of all e more prayer

can get this want met, it will belone to reach everything else. Oh, for a mighty hapour borders!

By prayer I mean your going to God and asking Him, for Jesus Christ's sake, to supply your need, whatever it may be. This is what God gives you the privilege of doing. Prayer is a very easy, practicable thing, and means just asking God, in His great mercy and loving kindness, to give you the things you need.

Jesus Christ evalts prayer very highly. He says in that wonderful passage. "Whatsoever things ye desire, when ye pray, believe that ye receive them, and ye shall have them."

WON'T YOU IMITATE HIM?

 Not only did our Lord arge as to pray by
His words, but by His example. On the mount His words, but by His example. On the mountain-side, in the wilderness, and in the Garden. He eried to His Vather on our behalf. Won't you imitate Him? I am sure He will love you and bless you if you will.

We want more prayer because of the wonders it will bring about for us personally. Look at the blesings you have already received. You askel Hint to forgive you. Don't you remember crying to Him for Salvation, and don't you remember how He answered you?

We can all pray. That is one of the most precious aspects of prayer; it does not require special position, or education, or gitts, or anything else, to be able to approach the Throne of God and spect to the Great Pattier. In the excesse of this privilege there is no respect of persons. All are welcome. The conditions of electinal prayer are threefold: Sinceriy, Faith. and Perseverance. They are within reach of every Soldier in The Salvation Army. Let me give you an illustration:—

In a certain gentléman's maneion where s number of servants were kept, a Salvationist was hired as a scullery girl. This gare great offence to the housekeeper, who was a proud. worfilly woman, having no religion of her own, and despising earnest religion in anybody elementary the Salvation Army religion, of the pattire of which she was almost as ignorant as

a heathen. Consequently her dignity was touched, and she was no little annoyed at the idea of a Salvationist coming into a highlyrespectable establishments like the one over which it was her duty to preside. She resolved, therefore, to have no dealings with this strange little creature, and any instructions she hall for her were given through others. In plain Eng-iish, she despised her.

"SALVATION HYSTERICS" FEARED.

But one night, after having settled down for chamber door, saving that there was something chanther door, saving that there was something strange going on in the scullery girl's room; queer sounds could be heard; she and her tellow-servants were afraid of Salvation hysterics or something of the kind; would the house-keeper come and see what was the matter? "Go and see for yourselves," was the answer. and see for yourselves, was the answer. On you don't like to," was the reply: "we dare not." "Well." said the housekeeper, "go back to bel't there is nothing seriously wrong." A little while afterwards the knock eame again: "Would the housekeeper please come." They were sure something strange was going ou."

Thinking that perhaps the commotion might

reach the ears of her maste, the housekeeper threw some things about her and sallied forth. When she reached the chamber whence the when she reached the chamber whence the mysterious sounds proceeded, she listened, and sure enough there was a strange noise—something between sohs and a groan could be heard. thing between sohs and a groun could be heard. She three nearer and distinctly heard the following interspersed with sohs, "O Lord, forgivene! I've been here three mouths, and not had-courage to speak to the housekeeper. O Lord, save her and don't let her suffer for my neglect, and do give we courage to speak to her about her soll Do, Lord. Do save the housekeeper!".

HOUSEKEEPER AND SCHLLERY GIRL The lady housekeeper collapsed, opened the door, entered the room led by the side of the scullery girl, and, putting her arms round her, herged her to show her how she could find leens. I need not say that that night was the night of Salvation; but f will say that the house, keeper is now an Officer in The Salvation Army, Oh, pray, pray! Vou can all pray.

Does any one ask What shall we pray for?. That is a proper question, for no one will prayernestly who has not some definite object hefore him. I will therefore tell you what that object must be:—

Her references to her eall and to her work as an Ofheer assured the workers that they had before them a practical Salvationist, one who had learned many things in the school of experience, and who was now prepared to give herself thoroughly to the work now before them. Mrs. Potter outlined some of the plans she had in mind for the enfargement of the League's sphere of usefulness, one of which was the starting of a Sewing Class, for the providing of elothes for poor people: It is also hoped that a League Fund will be started almost immediately, and in its aid, special demonstrations by the city Corps and Officers are being anticipated.

On another page we give brief descriptions of the Eastertide campaigns conducted by The General and Mrs. Booth in the Old Country. these results would be remarkable in any case, but they are invested with added importance when it is remembered that the
gatherings our Leaders thus counted were, we believe, their first
in those cities since The General came to his present position. The ahundaot and continued blessing of God upon the work of anindact and continued diessing of the Application of Manager and Mrs. Booth is cause for profound gratitude.

May we also say, with a full sense of The Army's utter depend-

ence upon the favour of God, that those outnourings promise well for The Geogral's eagerly-anticipated campaign in the Dominion.

For Christ's Sake

CHAPTER III .- FOLLOWING THE MASTER.

In these papers. I have touched on the point "For Others' Sake."

I have spoken a little of "For one's own sake," and now I turn to a subject which must be intumately connected with both of these—I mean, "For Christ's Sake."

a subject which must be infimally connected with both of these mean, "For Christ's Sake."

Self-Denial Week now steps over our threshold. We have looked Self-Denial Week now steps over our threshold. We have looked forward to it, and the time has eome when we shall not only gather in the money for the work, but also by personal Self-Denial during one week, show our love to Christ, who, for thirty-three years, denied Himself for our sakes. Now, for His sake, we are going to renounce something. For Christ's Sake we will go further in Self-Denial than we have usually gone in following Him.

Yes, in deeds of love and self-aserfise we may be sure we are following the Master. "Self-Denial" said Mrs. Booth, The Army Mother, in a phrase that will live as long as the Movement lasts—Self-Denial will prove your love to Christ," and there is no better way of first the Christian will read to the said of the said of

"IT WAS OUITE WORTH THE SACRIFICE" "IT WAS QUITE WORTH THE SACRIFICE."
What beautiful instances of this actual following of Christ we meet in The Army! Some time ago, two of our women Officers came, in visitation, across a poor woman and her children, who, on account of the husband's drinking habits, were reduced to the verge of starvation. The financial resources of the Officers were necessarily of starvation. The linancial resources of the Ufficers were necessarily slender, but something bad to be done at once. Once of them hurried off to prepare a bowl of grue! for the mother and food for the children; meanwhilk the other had set to work at cleaning the proon, the women, and the little ones, and in much the same fashion they continued to attend to this family for three weeks.

When the husband saw the kindness of The Army Officers his hardened heart was broken—he wept. Persuaded, by and by, to attend a meeting, he sought salveation; the wife also became converted; and the family soon left the wretehed "Noah's Ark." as they verted; and the family soon left the wretehed "Noah's Ark," as they called their lodging-house home, and moved into a little cottage, and now, as happy Salvationists, they are as unlike what they once were as it is possible to imagine.

"But how did you manage it?" the Divisional Commander asked the Captain, "How did you get food for them?"
"Oh." the lassic replied, "Lieutenant and I lived on bread and

margarine to do it, but it was quite worth the sacrifice ARE YOU READY-OFFICER SOLDIER PRIEND?

That is the spirit of the Master-Self-Denial for Ilis sake.

When we see all around us dying men and women, when we see all around with hunger and cold, when we see all ahout us the destruction of souls, and when we consider all the spiritual distress prevailing in the heathen world—then shall we not in one sentence declare that all we can possibly do to bring about a better state of things, shall be done for Christ's sake?

Are you ready? Officer, Soldier, Friend, Reader of these lines

RITOVANCY OF SPIRIT—APPLICATIONS FOR OFFICERSHIP—CALLING FOR THE ARMY—FACTS THAT STRONGLY SPEAK

Among the evidences of growth and development that have marked the work of The Army in the Dominion during the last twelve months, the most striking of all is one that is too taugible even to be seen. "The wind bloweth where it listeth and thou heareyen to be seen. The wind bloweld where it isseed and thou near-set the sound thereof, but canst not tell whence it cometh or whither eat the sound thereof, but canst not tell whence it cometh or whither it goeth." So it with the spirit of a Movement. It may be as difficult to trace the distant uprising of the spirit of increased devo-tion and readiness to fight, as it may be almost impossible confi-dently to trace the final outflowings of that uprising. And yet no-thing is more certain than that a new spirit has come over the face

mgs.

Personality and the power of example may supply a partial explanation, and we ought at once to say that oo man in the wide Dominion has toiled with more devotion, more sacrifice of persona Dominion has touch with more devotion, more sacrifice of personal comfort, or more unceasingly than the Commissioner, whom God preserve amid his many labours? But personality and example do acknowledge the good liand of God opon His work.

Almost everything depends upon the spirit of a man or move-ment. Ask any Officer in the Dominion, and you will be told that a hopeful, huoyant, confident spirit prevails throughout the Territory. We have ourselves seen powerful proof of this, but we base our assertion on the assurance of those who are io a better position to know than a comparative stranger wealld be.

Intangible as that evidence of development may be, it is at the as comrades and friends will realize, of the first importsame time, as comma

We have mentioned the difficulty of tracing the outcome of

We have mentioned the difficulty of tracing the outcome of such a spirit, To one or two, however, which are so clearly out. Jined for us that he who runs may read, we taxy well point.

To begin with then, we name the greatly-increased number of applications for Officership within the period under review. We may be permitted to say that there are now nearly two hundred Candidates on the rolls, whose applications are either already settled, with a view of their entering Training in the oext Session, or are still under consideration. Ninety-one accepted Candidates entered a Training during the year, the greatest number in the history of The defining during the year, the greatest number in the history of The defining the year, the greatest number in the history of The

Aftiny in Canada.

It is, we are assured, quite probable that were there sufficient
accommodation at the Training College, the next Session might

ambber 130 Cadds, and that Lafi the nomber would be young men.
In the fair and exceptionally prosperous West, young men
are offering themselves for the work of The Army. At one Corps

out there we have seventeen Candidates.

It is gratifying to know that in addition to all the new applications received, numbers of comrades who for various causes had

must surely have been the feelings of the one hundred and fifty or

more Young People of the London Division, after the splendid day they had with the Commissioner on Sun-

form. No fewer than seveoty-six of those present had come from Corps outside London, some of them tra-

felt it necessary to withdraw from Officership are returning to the

Front.
We leave these facts to speak for themselves.
One other outgrowth of the spirit we have mentioned is the strong, insistent ev; for extension and reopening that reathes our leaders. Had they but the necessary men and women, a great advance in the direction of Corps to be opened might he made in the West, as well as in Ostario, and then the Men's and Women's Social Work also offers remarkable opportunities for development were the Officers available

the Officers available.

Turning to other phases of Army Warfare, we might speak of the soul-saving results which here and there, from the Pacific to the Soul-saving results which there are the Young People's Work, is which the substantial property of the Young People's Work, is which the substantial property of the Young People's Work, is which the substantial property of the Young People's Work, is which the substantial property of the Pacific and Chancelors, with direct responsibility for the interests of the Children and Young People: of the Maris Social Work, a feature of which has been the determined efforts made to bless and help applictually the thousands of men who nightly come under The Army's care, attractive meet-ing rooms having been provided in Montreal, Hamilton, Toronto, and Halifax; of the Women's Social Work, in which the upening of Kildonan House, an Industrial Home in Winnings, has been, ot Kndonan House, an Industrial Home in Winnings, has been, jurhaps, the most conspicuous feature; of the Immigration Depart-ment, which is doing excellent work in bringing out great num-hers of men, women, and children; or of the Property Department, which has had the most remarkable year of its history, as we have previously explained in the "War Cry."

We might also remind our readers of the great confidence re-

posed in The Army, both by Governments and people, as illustrated, for instance, by the spientid effort of the citizens of Toronto, under the presidency of the Licutenant-Governor, Sir John M. Gibson, in Javour of the Canadian Memorial for The Army's beloved Founder. But these things need not now he emphasized. We would only add

They speak eloquently of health and vitality at the heart of The Army, as well as of progress in all its branches.

They cannot but provide cause for great thanksgiving to God for His continued favour and hlessing; and They must, we feel sure, most heartily commend The Army in the sympathy and generous support of our friends in cohnection with the Self-Denial Effort.

with the Self-Denial Effort.

There is inspiration in supporting a vigorous and growing organization, one that, where the need is deepest and most urgent, is right there all the time.

And that is The Salvation Army.

pentages towards God and faith in the future will be aff the better for the enlarged vision, the quickened spiritual life, and the higher ideals that come to the Young People of

the present.

In this sense these Young People's Councils are vital to the future of The Army, and all Salvationists should earnestly pray for their suc-eess. This is the fourteenth Young People's Day that the Commissioner has conducted in Canada, and there has conducted in Canada, and there is abundant testimony to the in-creasing devotion and spirituality of the Voung People who have been

privileged to attend them.

Early in the morning session of the London Council the Commisthe London Council the Commis-sioner was at some pains to explain how the Young People could make the most of the day for the benefit of their own souls. He warmed them not to allow their minds to war-der. He urged them to make it an occasion of self-examination, and to aim at securing the Mission them.

The Commissioner is a firm be liever in the complete sincerity of Salvationist Young People. They may have limitations and shortcomings, he affirms, "but it we can only get them to see what God's will is-

When he touched on such subjects as daring to stand alone for Christ, conquering besetting single and things that spoil the lives and mar the service of Young People, the faces before him became more thoughtful, while shades of doubt began to chase the former looks of

confident assurance from the fear tures of some.

The Commissioner concluded his
